

AP Combined Telecom & CATV Dual Bay Pedestal

NEMA TYPE 3R

AMERICAN[®]
PRODUCTS 

AP Combined Telecom & CATV Dual Bay Pedestal

The American Product's TC-PED enclosures are a family of combination pedestals for the cable television and telephone industry. These innovative peds are an economical alternative to industry standard housings.

Common Uses:

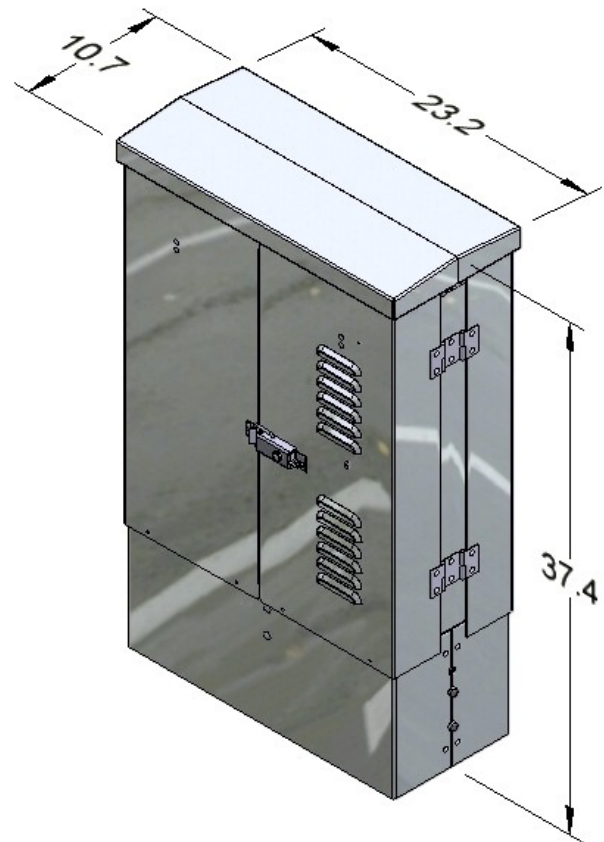

The CATV side provides suitable housing in which to mount taps, splitters, line extenders & filters. The telephone side provides housing for splicing, load coil mounting, cross-connects terminal blocks and carrier systems.

Features:

- Stainless steel hardware and heavy gauge mill galvanized, powder coat painted steel
- Superior chemical resistance and will withstand ultra-violet radiation
- Equipment housing will withstand many years of service
- Easy to work on equipment from any angle
- Hinged front covers with 216 type security over-center locks with padlock provisions
- Metal tap mounting bracket & ventilated front cover provided for the CATV compartment
- Di-electric shielding, tie wrap saddles, grounding bracket & solid front cover for the telephone compartment
- 32" anchor posts & hardware included

Specifications:

- Size: 38" Tall x 23" Wide x 10" Deep
- Weight: 110 lbs approx.
- Ship Weight: 120 lbs approx
- Material: Galvanized Steel
- Powder Coated: Compliant with GR487 standards
